Highlights

- April 8-11 was OPSEU/SEFPO Convention. We attended all election and union business at the main hall of MTCC. I attended the CERC/OPS Unified Caucus on April 9th in the evening, and the Ministry of Labour, Immigration, Training and Skills Development Caucus on April 10th at noon. We met and collaborated with other groups and initiatives in the Constitution Hall including the Injured Workers Community Legal Clinic (IWC).
- May 30-31 was the OPSEU/SEFPO Educational weekend at the Chelsea Hotel. I took the Stewards 1 Course, where we learned the basics of the union system, the grievance process, and how to improve communication with our members. It was a great networking opportunity and time to connect with our LEC and Trustees in person.
- The Dismantling Systemic Racism Program (DSRP) I took June 17th was great. The program helps ensure that members throughout all levels of the organization are equipped with the necessary tools to disrupt and dismantle racism whenever it happens. It is working together as a collective that will ensure that real, tangible change happens.
